Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

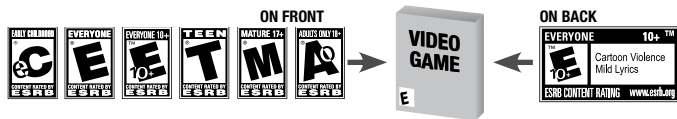

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

ESRB Game Ratings

The Entertainment Software Rating Board (ESRB) ratings are designed to provide consumers, especially parents, with concise, impartial guidance about the age-appropriateness and content of computer and video games. This information can help consumers make informed purchase decisions about which games they deem suitable for their children and families.

ESRB ratings have two equal parts:

- **Rating Symbols** suggest age appropriateness for the game. These symbols appear on the front of virtually every game box available for retail sale or rental in the United States and Canada.
- **Content Descriptors** indicate elements in a game that may have triggered a particular rating and/or may be of interest or concern. The descriptors appear on the back of the box next to the rating symbol.

For more information, visit www.ESRB.org

Who is Milo Burik?

His name is Milo Burik. We're trying to get more information on this guy, so keep a close eye on his movements. His presence in the city may attract and expose many other wanted criminals.

Why is he in
Barcelona?

We don't exactly know why he's in Barcelona. There's word on the street about something big going down, and it could be related to the upcoming Realitat political rally in the city.

Milo's Driving Skills

Drift

Milo's driving skills are legendary. He seems to be able to make nearly any vehicle drop into a high speed drift, making him very hard to keep up with through corners.

Handbrake

Milo's use of the handbrake is artistry. Using it, he can spin a car to face a different direction in the blink of an eye. This enables him to quickly change direction without warning.

Note: Although we believe he has been involved in many vehicle chases, there are no reports of officers killed.

Sat Nav

Milo uses a satellite navigational device to find his way through the city. As he drives, it adjusts to show optimal routes to any desired location in the city.

It also has the ability to track the police if he's involved in a chase. The amount of illuminated stars represents the intensity level of police interest. Incoming message alerts are displayed at the bottom.

Milo's PDA

Milo can access a full map of the city through his PDA. There are a number of different things that will aid him, including:

- Milo stores his objectives on his PDA.
- He can set a Waypoint on his PDA screen. Locations such as Side Missions, Garages or a Weapon Cache can be selected to lock the location on the Sat Nav route finder. When he highlights a Mission or Side Mission, the details are displayed clearly on the PDA.
- Milo can select and begin any Mission or Side Mission from his PDA. For some Side Missions, he needs to be in a vehicle before he can travel there. Certain vehicles suit Side Missions best, so he needs to choose his vehicle carefully.
- His PDA can be used to track his progress in Barcelona. He keeps tabs on critical things like the amount of Garages and Weapon Caches he has unlocked, completed Side Missions and which vehicle upgrades have been unlocked (become available).
- All Milo's emails are stored in his PDA, so if he needs a reminder of his next step, all of his correspondence is within easy reach.

Special Moves

Word on the street is that Milo has an incredible ability to build up Focus, allowing him to achieve impossible things with a vehicle. Once he's in the zone, he can perform the Special Moves listed below.

Witnesses say Milo has the ability, at high speeds, to focus a powerful gunshot through his windshield. His aim is near perfect, so do NOT stay in front of him too long during a vehicle chase.

Witnesses have also seen Milo perform a Special Move called the Cyclone. At high speeds, he can spin his vehicle 180 degrees, focus and then destroy his chasers with a pistol.

Combat Moves

It's hard to believe, but witnesses and victims believe that Burik has an amazingly dangerous method of stealing vehicles. He Airjacks their car by leaping from the car he is driving onto their car. The poor Airjack victim is then cast out onto the street.

Note: Milo is able to Airjack any vehicle at any time. His level of focus doesn't seem to be a factor.

Combat Moves

Milo's weapon skills are often brought into play to complement his vehicle attacks - particularly when he's driving a motorcycle. He has been seen taking out the tires and occupants of other vehicles with a few precise shots as he drives past. His accuracy seems to improve the longer he can keep firing at his enemy.

Car Attacks

Motorcycle Attacks

Milo's driving skills are not limited to fast drifts and handbrake turns. He's been observed destroying his enemies' vehicles by shunting and slamming into them with his own ride. Enemies to the left, right and in front of his vehicle can be targeted.

Wherever Milo Burik goes, a trail of smoking wreckage is usually left in his wake. He inflicts untold damage to public property using this combative style of driving.

On-Foot Skills

It's reported that Milo is incredibly skilled in combat situations. His use of cover and high powered weaponry helps him survive in his world.

Lock-On

Witnesses also say his ability to take cover, lock-on then fire at a foe is uncanny.

Precise Aim

We're told his creativity is something to behold. We've heard that he's been known to focus his aim on a precise target, such as explosives, to take out his enemies.

Taking Cover

Our sources say he has an innate ability to lock-on to a target, then take him out.

Possible Accomplices

Lumi Vega

We believe Lumi will be working with Milo on an upcoming heist. Catch her in the act, and you just may see Milo behind the wheel.

Javier Ramos

Javier works closely with Lumi Vega. If she's planning a heist, you can be certain that Javier will be involved.

These are only some of the contacts we are aware of. There are more.

If Milo needs to know what the word on the street is, he'll go to Adrian. As criminals go, he's not at the top of our list, but keep an eye on him.

Barcelona Crime Families

Paulo Lial, head of the Los Lantos Cartel, might be looking for someone with Milo's skills. Milo might not want to refuse Paulo's offer. This guy is your friend one minute then your violent executioner the next.

Paulo Lial

Stavo Delgado, head of the Chulos Canallas, may also require the services of a Wheelman like Milo. Come across Stavo, and you're likely to find his unpredictable brother Miguel, a Chulos Canallas enforcer.

Stavo Delgado

Radu Negrea

Radu Negrea, head of Barcelona's Romanian faction, will likely want to employ Milo to do his dirty work. Formerly a key figure in Russia's gangland, Milo will need to watch his back if he does any work for Radu.

Suspected Offenses

We believe he is regularly hired to hunt down and destroy a particular vehicle and its occupant. Completing these missions seems to infuse Milo with more focus, which allows him to pull off special moves more easily.

Contracts

Fugitive

Milo apparently has enemies, and when they spot him on the street, a violent vehicle chase ensues. His enemies will do whatever is necessary to take him down. Completing these missions seems to make Milo's vehicles stronger.

There are also reports that he is sometimes hired as a courier, driving dangerously through the streets of the city. Reports state that completing these missions allows Milo access to Weapon Caches throughout the city.

Hot Potato

Made to Order

Milo is suspected of Airjacking and delivering stolen vehicles to his counterparts. He has little time to spare, so stopping the car to let out the driver is NOT an option. We believe that completing these missions unlocks his Garages throughout the city.

Suspected Offenses

Milo is suspected of going on a Rampage, destroying public property and attacking citizens in other vehicles. Completing these missions seems to give Milo an edge in car combat. It's as if his attacks get more powerful!

Milo may be taking part in illegal Street Showdowns. The speeds are incredibly dangerous to other drivers and pedestrians. Completing these missions allows Milo to upgrade his cars' performance. Their handling and power seem to increase.

Milo is suspected of stealing taxis and picking up passengers. Many witnesses and passengers say that their driver was a maniac with no regard for public safety.

Completing these taxi rides allows Milo to quickly travel to specific locations throughout the city.

Places of Interest

Milo has been seen accessing many Garages throughout the city. He apparently uses them to help evade police and spray his car a nice new paint job.

Milo has been witnessed picking up items from his Weapon Cache. It's accessed to attain one of many secondary, more powerful weapons. He has friends in high places, giving him easy access to many powerful firearms.

Municipal Threats

We need to protect the city. Burik is linked to destroying artwork, as well as reckless driving beyond regard for public safety. Cameras throughout the city have captured some shocking images. Here's what we know:

Lion Statues

Milo must hate these Lion statues. There are many of them scattered throughout the city, and he is suspected of destroying any that he comes across.

Milo's suspected reckless driving may not be limited to the asphalt. Witnesses have seen vehicles soaring through the air. If you're pursuing Milo at high speeds, be prepared to land your vehicle safely.

Contact Us by Webmail

Due to high volumes of spam, viruses, and other non-support-related contacts, we no longer offer support via standard email. However, we do provide something better, webmail. By taking your questions directly through our website we have completely eliminated all spam contacts. As a result, we are able to respond to your questions much more quickly than we could through standard email. To send us a webmail, simply log into our site at <http://support.ubi.com>.

From this site, you will be able to enter the Ubisoft Solution Center, where you can browse through our lists of Frequently Asked Questions (FAQ), search our database of known problems and solutions, and send in a request for personal assistance from a Technical Support representative by using the **Ask a Question** feature on the Frequently Asked Questions page. Most webmail contacts are responded to within two business days.

Contact Us by Phone

You can also contact us by phone by calling **(919) 460-9778**. Please note that this number is for technical assistance only. No gameplay hints or tips are given over the Technical Support line. When calling our Technical Support line, please make sure you are in front of your gaming system and have all of the necessary information listed above at hand. Be advised that our Technical Support representatives are available to help you **Monday through Friday from 9 am–9 pm Eastern Time**. While we do not charge for technical support, normal long distance charges apply. To avoid long distance charges, or to contact a support representative directly after these hours, please feel free to browse our Frequently Asked Questions lists or to send us a webmail. Webmail questions usually receive a response within two business days.
